GLSSSS PT1 2023

**Storage devices**

The devices that are used to store data are called storage devices. There are many storage devices to store our data or work, so that we can get it back whenever we need it. Let us discuss some of the commonly used storage devices.

**CD and DVD**

The CD drive reads information stored on a Compact Disc (CD). A CD is an external storage device. DVD looks like a CD but can store more than it.

**Pendrive**

It is a portable device and is easy to use. It has a larger storage capacity than DVD.

**Answer the following questions:**

a) What is a storage device?

.....

.....

.....

b) Name any two storage devices.

.....

.....
